

Fall

Generous volumes in soft hues characterize Fall collection by designer Joost van der Vecht. A series of 3 countertop models, where the need for space determines the choice.

The concept is based on a play with height. Fall comes in a height of 180mm, 270mm and 360mm. The high Fall basin of 360mm will naturally be placed on a shelf closer to the floor which results in a nifty volume next to basin for accessories.

Fall has a soft minimalist appearance due to its straight lines combined with the smooth color tints of Himacs like Sea Oat Quartz, Peanut Butter and White Quartz.
